To provide better care and services to renal disease patients, we are expanding our scope of support to also include patient-centred medical care. With this, your support is crucial in helping us to set up a dialysis centre in 2023 to meet the demand for a dialysis centre in the north-eastern zone.

With an area of 440sqm, the new centre in Buangkok will consist of:

- A treatment zone with 16 dialysis stations that can serve up to 96 patients per week
- An activity zone to engage renal disease patients in health and wellness programmes

Patient activity zone (肾友活动区)

从经济援助到人本医疗,慈济希望拓展肾友关怀服务。2023年洗肾中心的启用,即是这份承诺的落实,诚邀您一起来共襄盛举!

- 占地440平方米,填补东北部(万国)非盈利洗肾中心的空缺
- 设16个床位,一周能服务多达96名肾友
- 含举办身心灵活动的肾友活动区
